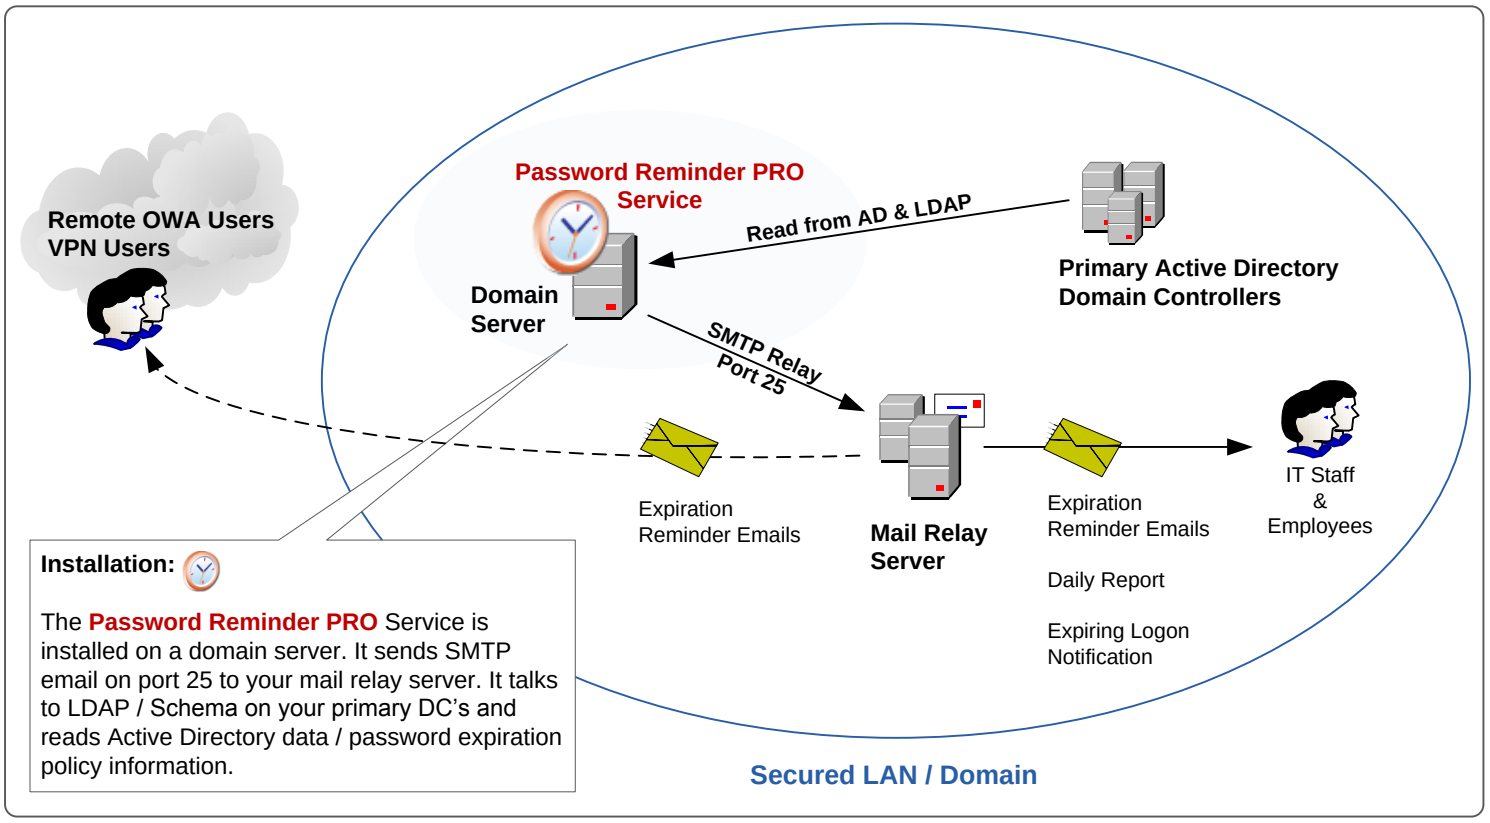
Password Reminder PRO Network Architecture Diagram

Updated 3/07/2009 Questions? support@sysoptools.com / +1-213-995-5062

Connectivity



Tip: You can use any mail server with Password Reminder PRO- Exchange, Groupwise, Linux etc.

Tip: You can use an outsourced mail server if your email provider is hosted, and will allow inbound SMTP relay from one of your domain servers.

Tip: Password Reminder PRO is "read only" software, it does not make changes in your domain
